

# WHAT IS TRANSFERENCE HEALING®?

Transference Healing® works not only with the physical, but also the emotional, mental, spiritual and electromagnetic dimensions of the body and consciousness. It is a seventh dimensional frequency-healing modality that uses elements, sound, colour, alchemy and light to work with the deep levels of your etheric patterning. By tapping into these inner dimensions of your body and consciousness, your Transference Healing® practitioner gains insight into your healing and ascension journey. They are then able to channel the universal resources necessary to facilitate a divinely-orchestrated healing - one that is specific to your own enlightenment process.

The human body is the vehicle through which we crystallise light; it is the key to our ascension process. Transference Healing® enables you to decode genetic and past life pain so you can generate new levels of wellness and embody higher consciousness at the most fundamental cellular level. By raising the frequency of the body and transmuting matter into light, Transference Healing® supports you to integrate your lightbody, raise your consciousness and live a multidimensional reality.

When you receive a Transference healing you develop your own connection to the universal forces at play in your reality. You connect with the hidden mysteries, origins and functions of the physical body, and integrate with your Higher and Future Self. Transference Healing® empowers you to develop your spiritual gifts and talents, and awaken your self-healing abilities.
